---

## TRAINER

**Jonathan Le Lous** is Vice-President, Infrastructure and Cloud computing at Savoir-faire Linux. He manages a team of 30 architects and expert technicians in Open Source software, including OpenStack. Jonathan has been working with OpenStack for 4 years. He discovered OpenStack during his last work experience as an R&D manager in France.

Jonathan is also a VP sitting on the Association of Francophone Users of OpenStack. He also belongs to the organizing committee of OpenStack Montreal. You can read his column in Direction informatique, the magazine for Quebec CIOs, or in our blog (English version). <https://blog.savoirfairelinux.com/en/p/jonathan-le-lous/>
